SUMMARY

Self-motivated and results-driven Front-End Developer with 5+ years of experience building scalable, user-centered interfaces. Equally fluent in design and engineering, I work across Figma and code to ship interfaces that are both visually refined and technically solid. Experienced with startup and enterprise environments, including Fortune 500 clients.

EXPERIENCE

Paramint
Dec 2023 – Present

Front-End Developer · Freelance · Remote

- Developed and maintained websites and microsites using modern frontend frameworks with responsive, accessible design.
- Collaborated with developers and QA to ship new features and resolve cross-platform issues.
- Built low-code solutions with Retool and JavaScript to streamline internal workflows.

Tulip Health AI
Aug 2022 – Dec 2023

UI/UX Designer & Front-End Developer · Freelance · Remote

- Led product design and branding for a health-tech startup, delivering a full UI/UX solution for a web-based doctor's platform.
- Designed the end-to-end product experience including app UI, design system, and visual identity.
- Contributed to frontend development of the marketing website and the core web application.

Pointwest Technologies
Jan 2022 – Aug 2022

Front-End Developer · Full-time · Philippines

- Assigned to Excellis Interactive (client), delivering enterprise-level frontend solutions for Fortune 500 sub-clients.
- Comcast: Led the UI redesign of a complex internal tooling system, owning the frontend architecture and interface overhaul.
- Integrated RESTful APIs across large-scale systems and collaborated with globally dispersed developers, QA engineers, and analysts.

Mabalacat City Government
Aug 2019 – Dec 2021

Full-Stack Developer · Full-time · Pampanga, Philippines

- Designed and implemented scalable web applications and optimized landing pages for cross-browser compatibility.
- Developed an automated solution for the city's COVID-19 response program, improving service delivery efficiency.
- Collaborated on code reviews and validated compatibility across browsers, devices, and OS environments.

Mabalacat City Government
Jul 2018 – Jan 2019

Intern · Pampanga, Philippines

- Proposed an inventory and work order system for a municipal unit providing free medicines and medical services.
- Assisted senior developers in building and maintaining existing web applications.
